Professional profile

I am Huda Ahmed Abid, currently working in University of Mosul /Iraq as an organic chemistry lecturer. I am an expert, dynamic and an ambitious lecturer in Organic Chemistry, who can ensure good progress for all students. I can inspire and facilitate high quality learning through engaging and effective teaching techniques such as using technology in my work. I successfully graduated from Keele University in the UK in 2018 having a PhD in Organic Chemistry. I had an opportunity to work and get huge information from my work in School of Chemical & Physical Sciences, Chemistry and Medicinal Chemistry, Lennard-Jones Building, Keele University between Feb 2014 and June 2018. My supervisor was Michael Edwards. He was a good supportive person who encouraged me all the time and gave me a hand to make our work in a good shape.

Employment History

16th July 2012 – Present **University of Mosul, Iraq**

Role title: Organic Chemistry Lecturer

This role required me to be an inspirational and enthusiastic practitioner with high expectations of my own lecture with my students. I was fully committed to learning, high quality teaching of all students, eager about my subject; and able to inspire and motivate my students through giving them some ideas to show the best way to achieve their potential.
