## Teaching Staff : 2548

Number according to sex

Number of teachers : 1698

Number of Female teachers : 850

## Number according to academic title

Assistant Instructor : 1004

Instructor : 631

Assistant Professor : 740

Professor : 173

## Number of Officials:5028

Males : 2561

Females : 2467

## Number of University Students:22531

Male Students : 13687

Female Students : 8844

## Number of Postgraduate Students:2116

Male Students : 1274

Female Students : 842

Number of graduate students : 51176

Number of graduate students : 46618

Number of postgraduate students : 4558

Number of Academic Journals : 18

## Local Academic Journals : 12

National Academic Journals : 6

Number of colleges : 20

Number of Academic Departments : 109

## Mosul City

Mosul City is one of the Iraqi cities. It is deeply rooted in history as one of the three oldest cities in the world . Many cultural innovations and discoveries are attributed to Nineveh governorate which is surrounded by Duhuk governorate from the north , Salahulddin governorate from the south , Al-Ta'mim and Erbil governorates from the east ,and Syria from the west ,so it lies between longitudes of 41, 25 and 44,15 east and latitudinal of 34 ,15 and 37,30 north .Nineveh is a yard of the Assyrian civilization in that it includes the four capitals of Nineveh,kalih ,Nimrod, Khursubad ,and Assyria . It is thought ,however , that there is another lost city called Al-Maghar (800 Ir.)which belongs to the middle Assyrian era as excavations indicate.

Total population of Nineveh is (2.174.372) persons according to 1997 census and expected to amount ( 2.408.287) in 2007 distributed on an area of (37. 323 Km<sup>2</sup> . It includes nine provinces. The city is penetrated by 214 km of Tigris river beside the 47.5 km lake of Mosul Dam as well as the upper zab and Alkhazer which has a tributary called Alkomal passing through the city .

The ruins of Nineveh which is surrounded by a wall along the eastern bank of Tigris . It is believed that the name "Nineveh " has a connection with the Goddess "Nena" (the Goddess of The fish or the Whale ) as well as with the Prophet Jonah "peace be upon him" known also by the name of "Thonnoun " and his famous story with the Whale mentioned in the Glorious Qura'n.

POCKET MEMORY

Nineveh is surrounded completely by great walls (6.6km ) supported by a trench from the east to form a trapezoid of a 12km circumference .Its northern side (1-2km) includes three gates : "Add, Nirkal, Sin " ;whereas, its southern side (800m) includes Assyria gate .

The eastern side (5km) includes six gates from south to north : Khelsy , Shamash ,NNlil, Mishlal, Shibaniba, and Khalaly. Finally the western side (4.1km) along Tigris includes the following gates from north to south : Almasqi,Mashki, Almasnat, Karry, Alsahra'a, Madbary, Alsilah, Ekalmasharti, and Khandoury .

Today ,one of the most important monuments in Mosul is The hill of the Prophet Jonah " Peace be upon him "who was tested by God when swallowed by a whale for a period of time and then thrown on Tal At-Tauba "Repentance Hill" where he was covered with squash leaves and finally he went back to guide the people of Nineveh. Next to this hill lies Qouinjq hill under which lies the first and greatest library in history , the library of Assyrbanibal which was founded by the young Assyrian king Assyrbanibal who put more than 100 000 clayey tablet in this library . In the western bank of the Tigris there lies "Alhadbaa" the minaret of Alnouri mosque known also as Aljami' Al-Kabeer which was build in the era of Nourulddin AlZanki .Other famous mosques include An-Nabi Sheet"God bless him", An-Nabi Jarjes "God bless him " and the famous mosque of Ommiad ,known also by " Jami' Al-Musfi" which lies in a public area known as Alkawazeen which is famous of clayey works profession .in addition to a wide number of other well- known archeological remains such as the Atabic castle of "Bashtabya" and the nearby tomb of Yahya Al-Qasim and the remains of Qarasaray .To the south of Mosul , lies also the well-known city of alhadar which represents the gate to the western deserts of Iraq . Finally , there are also the remains of Namroud, Nineveh wall,Mosul Wall, and the remains of city gates. The history of Mosul is full of pioneers including the famous poet " Abu Tamam ", the historian Ibn Al-Atheer , Ibn Al-Shaar Almously ,and Ibn Jini.

The first appearance of the university of Mosul was in 1959 when the college of Medicine began its first course in Mosul .Yet the official appearance of the university as a real educational establishment was on the 1st of April 1967 when University Law No. 14 issued to establish an Iraqi University under the name of the University of Mosul. During the past years ,the University expanded to include 20 colleges ,7 research centers ,6 consultant offices ,5 clinics and hospitals , 6 museums , and a number of artistic and administrative enterprises .

The University of Mosul tries to realize the aims of higher education in Iraq including preparing scientifically high qualified national staff in 100 specializations as well as supporting the movement of scientific research and serving society . As for staff preparing ,the university awards certificates in B. Sc. ,B.A, Professional & High Diploma , M. Sc. , M.A, and PH. D in 100 scientific specializations distributed on the departments of the University .

The University continues in following its graduates after their employment in state establishments by providing courses of continuous education program aiming at refreshing the knowledge of its graduates .

As for supporting scientific researches ,the University imposes on its teaching staff a detailed research system to qualify them scientifically and to renew their knowledge as well as to submit new innovations . For serving the society , the University presents its services on different forms including field practices of its students and staff in different regions to present its services to families in different specializations . Since 1988 , the University has been evaluating these practices each summer . It also evaluates the competitions of creative arts for the University students in more than 30 genera in order to support the gifts of the University students. Another evaluation is conducted on the results of field survey of the schools of Nineveh governorate concerning oral and dental diseases . The University embarked on writing encyclopedias starting with the Cultural encyclopedia of Mosul in 5 parts and preparing for the issue of the cultural encyclopedia of Iraq in 20 parts.

The University has a role in publishing the Arabic creative heritage in that it issued the first print of " Auqwd Al-Juman fi Shua'raa' hatha Azzaman" written by Ibn Al-Sha'ar Al-Mosully in 10 parts after collecting its scripts from all over the world .

POCKET MEMORY

The University issued the first Arabic calendar and one of the most important four international calendars . It has issued the calendar since 2000 AC . The area of the first center of the university is 52.85 Ir. In addition to the area of the college of Agriculture and Forestry (41.01 Ir. ) . Whereas,the area of the second center of the University is 2.296 Ir. including the housing units of the teaching staff. Finally ,the area of the College of Medicine is 8517m2.

### **College of Medicine :**

The buildings and subsidiary buildings of the college of Medicine are located near the Medicine City in Mosul which includes Al-Zahrawi Hospital ,ibn -Sina Hospital , Al-Batul Hospital ,the Emergency Hospital ,Atomic Medicine Hospital ,Forensic Medicine ,Out-Patient Consultative Clinics , and Blood Bank. The College of Medicine is regarded as the oldest of Mosul University Colleges in that it was founded in 1959. It aims at catching up with the fields of scientific progress and modern techniques in medicine ,surgery , and Endoscopic Surgery . It has twelve branches which include .

<b>Internal Medicine</b>	<b>Community</b>
<b>Surgery</b>	<b>Medicine</b>
<b>Obstetrics and</b>	<b>Anatomy</b>
<b>Gynaecology</b>	<b>Pharmacology</b>
<b>Pediatric</b>	<b>physiology besides</b>
<b>Radiology</b>	<b>Forensic Medicine</b>
<b>Microbiology</b>	<b>Section</b>

### **College of Engineering:**

The College of Engineering was established in 1963 with the purpose of preparing specialized Engineering staff that would contribute to the development and comprehensive development progress. It has six scientific departments which include:

- |                           |                     |
|---------------------------|---------------------|
| <b>.Civil Engineering</b> | <b>.Engineering</b> |
| <b>.Architectural</b>     | <b>Computer</b>     |
| <b>.Engineering</b>       | <b>.Engineering</b> |
| <b>Electrical</b>         | <b>Mechanical</b>   |
| <b>.Engineering</b>       | <b>Engineering.</b> |
| <b>Water Resources</b>    |                     |

### **College of Sciences :**

The College of Sciences was founded in 1963 ,and is situated in the first University center . It comprises four specialized departments:

- |                  |                |
|------------------|----------------|
| <b>Chemistry</b> | <b>Geology</b> |
| <b>Physics</b>   | <b>Biology</b> |

It issues both the Iraqi Journal of Geology and Al-Rafidayn Sciences Journal , the second of which is an arbitrated scientific journal publishing the professors' research papers in the various fields of college specializations.

POCKET MEMORY

### *College of Agriculture and Forestry*

The College of Agriculture and Forestry ,founded in 1964, has ten scientific departments and one Section including:

<b>Agricultural Guidance</b>	<b>Forestry</b>
<b>Agricultural Economy</b>	<b>Field Crops</b>
<b>Horticulture</b>	<b>Agricultural Machinery</b>
<b>Soil Science</b>	<b>Plant Protection</b>
<b>Husbandry</b>	<b>besides Basic Science</b>
<b>Food Industry</b>	<b>Section</b>

### *College of Arts*

The College of Arts ,founded in 1966, aims at the preparation of specialists and scholars in the various fields of human sciences in a manner that it would keep up with the modern given tokens of this preparation. The College of Arts has ten departments which include

<b>Arabic Language</b>	<b>Archeology</b>
<b>English Language</b>	<b>Library and</b>
<b>French Language</b>	<b>Information Science</b>
<b>Translation</b>	<b>Cuneiform Studies</b>
<b>History</b>	<b>Philosophy</b>
<b>Sociology</b>	

It issues Adab Al-Rafidayn Journal .

### College of Administration and Economics

The College of Economics and Administration was first established in 1958 and then attached to Mosul University in 1974. It has five departments including

- Economic and Business Administration**
- Accountancy**
- Industrial Management**
- Finance and Banking Sciences**
- Administrative Information Systems.**

It issues a scientific Journal entitled Al-Rafidayn Development.

### College of Education

The College of Education was founded in 1975, and it consists of eleven departments which include

<b>Chemistry</b>	<b>Geography</b>
<b>Biology</b>	<b>Educational and</b>
<b>Physics</b>	<b>Psychological</b>
<b>Mathematics</b>	<b>Sciences</b>
<b>English Language</b>	<b>Computer Science</b>
<b>Arabic Language</b>	<b>Qur'anic Studies and</b>
<b>History</b>	<b>Islamic Education</b>

It Aims to provide intermediate, secondary, and preparatory schools and institutions with a teaching staff that would contribute to the continuance and promotion of the teaching and educational process. It issues Education and Science Journal.

## **College of Veterinary Medicine**

The College of Veterinary Medicine was founded in 1976 . It aims at the preparation of a specialized scientific teaching staff that would contribute to animals protection against diseases , diagnosis and treatment of their diseases ,their productive efficiency . The teaching staff would also contribute to community medicine fields related to the combat of diseases transferring from animal to man and to the watch of animal -made food . The College of Veterinary Medicine has seven scientific branches including :

- |                           |                          |
|---------------------------|--------------------------|
| <b>Anatomy</b>            | <b>Pathology</b>         |
| <b>Physiology</b>         | <b>Internal Medicine</b> |
| <b>Community</b>          | <b>Surgery</b>           |
| <b>Veterinary Hygiene</b> | <b>Gynaecology</b>       |
| <b>Microbiology</b>       |                          |

It issues a scientific journal entitled Iraqi Journal of Veterinary Sciences.

## College of Sport Education

The College of Sport Education was founded in 1977 in the aim of preparing specialized staff in Athletic Education Sciences in order to occupy their positions both in teaching sport for the students in the intermediate ,secondary ,and preparatory schools and institutes in retrieving the sport reality in Iraq . The College includes three Branches :

**Theoretical Sciences Branch**  
**Individual Games Branch**  
**Team Games Branch .**

The directorate of Sport Education which is responsible for Sport in the Colleges inside Mosul University is also annexed to the College

## College of Dentistry

The College of Dentistry was founded in 1982 in the aim of preparing dentists with full-qualification in their science field and with good abilities to examine ,diagnose , and treat oral and dental diseases wherever needed. The College includes the following branches :

<b>The Surgeries of mouth</b>	<b>Basic Dental science branch</b>
<b>Face and Jaws</b>	<b>Repairing</b>
<b>Conservative Teeth treatment branch</b>	<b>Pediatric and Preventive Dentistry .</b>
<b>Teeth Making branch</b>	

POCKET MEMORY

The College publishes a comprehensive scientific magazine entitled " Al-Rafidayn for Dentistry .

### College of Law

The College was founded in 1983 . It includes two branches .

**The Private law branch**

**The Public Law branch**

The College aims at preparing appropriate scientifically qualified staff in Law perspectives and institutions . The College publishes a comprehensive seasonal magazine.

### Pharmacy College

The College was founded in 1992. It prepares qualified students in Pharmacy to do their vocational and scientific task in the society service . The College publishes a comprehensive national magazine entitled " The Iraqi Magazine of Pharmacy ". The College includes three branches :

**Pharmaceutical Sciences branch**

**Drugs branch**

**Clinical Pharmacy branch .**

## **Basic Education College**

The College was founded in 1994 under the title " College of teachers " It aims at preparing qualified teachers able to participate actively in building the country . These teachers are characterized by good professional morals. The College also aims at enhancing the linguistic knowledge for the students in such a way to ensure preparing a teacher with sound language in addition to developing the scientific directions for the students to promote their self abilities. The College includes the following scientific branches :

<b>The Basic educational branch</b>	<b>The Private Education Sociology</b>
<b>The General Sciences</b>	<b>Sport Education</b>
<b>Arithmetics</b>	<b>English Language</b>
<b>Kindergartens</b>	<b>Arabic Language.</b>

## **College of Nursing**

The College was founded in 1993 . It aims at preparing highly qualified nursing staff and offering nursing ,preventive,therapeutical and qualified services to individuals ,families and society . It also aims at perceiving the theories and principles of nursing sciences for practical purposes, and following all the rules and measurements of nursing sciences . The college includes the following two branches :

**Clinical Medicine Sciences**  
**Basic Medical Science**

## ❖ College of Fine Arts

This aesthetic Artistic statue was established on the second Centre of Mosul University in 1994. The college includes two scientific departments:

**Plastic Arts Dept**

**Theatrical Arts Dept**

## ❖ College of Computer Sciences and Arithmetics

The college was founded in 1999. It represents the window through which Mosul University can witness the sciences and technologies in theoretical sciences fields in the reception of the third millennium and beginning of the 21st century whose onsets indicate that it is an informative century since the world witnesses a revolution and explosion of information.

The college includes the four following departments

**Arithmetics.  
Statistics.**

**Programming  
Computer Sciences**

The College publishes two seasonal magazines : "The National Magazine for Statistic Sciences" and " Al-Rafidyn" Magazine for Computer Sciences and Arithmetics".

## **Nineveh College of Medicine**

As Mosul College of Medicine was the first college in the University of Mosul in the second millennium and twentieth century ,Nineveh College of Medicine is the first college brought to light in the third millenium and twenty -first century . It was founded in 2001 and includes the following branches:

**Physiology**  
**Biochemistry**

**Anatomy**  
**Microbiology**

## **College of Electric Engineering**

The college is concerned with recent sciences in the field of technical innovations to which such specialization amounts . It was founded in 2000 and comprises three departments :

**Information and Computer Engineering**  
**Communication Engineering**  
**Electric Engineering**

POCKET MEMORY

## College of Political Sciences

The idea for establishing such a college originated in 1985 when there was a department , then developed into a college in 2002 . It comprises two branches :

**International Relations**  
**Public Policy**

## College of Islamic Sciences

The College was founded in 2004 and includes two departments :

**Department of Usul al-Din (Fundamentals of Religion)**  
**Department of al-Shari'a .**

## Research Centres

In order to assist the University in its work through supporting ,enriching and promoting scientific research , University of Mosul has established a number of scientific research centers involved in accomplishing specialized and pioneering researches and studies in many fields having a particular relationship with the domestic environment of the University , country and the surrounding area. The University has the following centres:

- Computer Centre
- Regional Studies Centre
- Mosul Studies Centre
- Water Resources Research Centre
- Centre of Environment Research and Contamination Control
- Centre of Developing Methodology and University Training
- Remote Sensing Centre.

## Consultative Offices

The idea of establishing consultative offices emanated from the endeavour of the part of the University to achieve one of its goals, i.e., providing services for the society. The offices give the city including institutions, personalities, and people the opportunity of making use of the specializations of the teaching staff and their excellent experiences in giving advice and participating in a number of activities supporting it. Following are the consultative offices:

**The consultative Office for Translation and Language Office**  
**the Scientific consultative Office for Veterinary Services**  
**the Legal Consultative Office**  
**The Pharmaceutical Consultative Office**

## Clinics

The University Centre for the medical colleges through bringing about a number of clinics to increase the services for people. These clinics are related to the medical college:

**Consultative Medical Clinics of the College of Medicine**  
**Medical Clinics of the College of Dentistry Teaching University Hospital**  
**University Teaching Hospital of Dentistry and Family Organization Natal Health Clinic.**

## Museums

In order to provide students with the required materials particularly those which are difficult or impossible to be offered on the spot for the lack of living specimens and field evidence on demand, the university has set up the following museums:

**University Documentary Museum**  
**Permanent Plastic Arts Museum**  
**Natural History Museum**  
**Popular Heritage Museum**  
**Pathology Museum**  
**Rays Museum.**

## Directories and Units of the University

The University manages its activities via the following directories, technical units and departments:

**Scientific Affairs**  
**Relations and Media Legal and Administration Affairs**  
**Financial Affairs**  
**Students Affairs Dormitories**  
**Ibn al-Athir Publishing and Printing House**  
**Secretariat General for University**  
**Libraries**  
**Services and Maintenance**  
**University Nursery**  
**Students' Centre**  
**Auditorium**
